“Preparing Children for Success”

Friday 8 January 2021

Dear parents,

The MIS online learning programme is ready to launch on Monday 11 January. Our teachers and staff have been working tremendously hard during the past week ensuring that everything is well prepared, and we are confident that our programme will provide all our students with the best online learning experience. Schedules and materials have been sent out, and many teachers have held short trial lessons to check that students can access the online platforms without difficulty. There is also technical help available – please check the information forwarded by teachers.

MIS understands that online learning is a concern for some of our parents. As educators we appreciate that learning online will never replace the classroom but we also know that it is important that a child's education is disrupted as little as possible and therefore in these troubled times online learning is the best substitute while schools are closed. In all honesty we do not know for sure how long the lockdown will be in effect and therefore it is very important that children continue their education through online teaching until the government allows students back into the classroom.

So, with preparations for our online learning programme complete I hope you all have a restful weekend. More information for parents will be coming out later next week.

Take care and stay safe everyone.

Best Regards
